The Xero logo is the single most important asset of our brand. It identifies our company and reflects who we are in a neat little package. Our logo evokes trust, reliability and support — a reflection of what we provide our customers.

**Our logo**

The Xero logo guidelines are designed to ensure brand consistency and to help maintain the visibility and impact of the logo. Artwork should never be recreated.

**Colours**

This is the preferred colour treatment of the Xero logo.

- **Print**
  - White: C:0 M:0 Y:0 K:0
  - Blue: C:90 M:0 Y:15 K:0
- **Screen**
  - White: R:255 G:255 B:255
  - Blue: R:0 G:183 B:227
- **Reverse**
  - Colours as above

When using the blue on its own;

- **Print**
  - White: C:0 M:0 Y:0 K:0
  - Pantone: PMS 312
- **Screen**
  - R:0 G:183 B:227

**Clear space**

Clear space has been established to guarantee our logo has visibility and impact. Maintaining the clear space zone between our logo and other graphic elements such as type, images and other logos ensure that it always appears unobstructed and distinctly separate from any other graphic elements.

To achieve brand consistency, artwork should never be recreated. Additional logos, usage guides, partner badges, certifications badges and others can be found in our online style guide.

**Minimum sizes**

The minimum size has been carefully established to ensure our logo is reproduced correctly in smaller sizes. At minimum size, the logo is still clearly legible and provides a strong level of identification.

**Colour variations**

Our logo is limited to a small colour palette. The only alternatives to Xero Blue are white or black — including when placed over images or coloured backgrounds. No other colours are used as a fill. If laid over photography, the word Xero should be clearly legible with a consistent colour behind the punched-out type. When used in this situation, the logo will almost always be the white variation.

**Logo clearspace**

Clear space has been established to guarantee our logo has visibility and impact. Maintaining the clear space zone between our logo and other graphic elements such as type, images and other logos ensure that it always appears unobstructed and distinctly separate from any other graphic elements.

Give the logo space to breathe. It needs surrounding clear space for legibility and impact. Nothing should encroach on the specified clear space. The clear space zone may be slightly smaller in online applications due to space restrictions.

In order for the logo to be recognisable, it’s important not to reproduce it smaller than is indicated here.
