xero APP STORE

Apps to help solve four of your business pain points

Apps can help automate your admin, generate you insights, manage your day-to-day operations and give you access to deep analytics for smarter business decisions. Here are some of the most popular apps in the Xero App Store that help tackle some common business needs.

Pain point 1: getting paid quickly

In business, cash flow is key. Having long payment collection periods increases bad debts and can lead to cash flow challenges. That's why tools for following up on invoices or having different ways to take payments are so important.

These apps are designed to help you get paid faster:

CHASER

Automate your invoice chasing and streamline your processes so you can get paid faster and more consistently.

Learn more

Kolleno.

Recover overdue balances with automated invoice chasing and one-click payment collection via a simple digital payment platform.

Learn more

stripe

Enables you to **accept payments from debit or credit cards, Apple Pay, and Google Pay** for online invoices sent from Xero so your customers can pay you easily.

Learn more

GOCARDLESS

Automatically debit your customer's bank account when your Xero invoices are due with this **bank-to-bank payment method**. A lower-cost alternative to card payments, it's ideal for businesses that bill their customers on a recurring basis.

Learn more

ignition

A complete invoicing, payment, reconciliation and client engagement solution for professional services business. This app caters for more complex needs so we recommend working with your accountant or advisor to set up.

Learn more

Pain point 2: rostering and managing staff

Employees are the lifeblood of any business but managing staff can be one of the most time consuming tasks. Even seemingly mundane tasks, like rostering, can have a huge impact on the wellbeing of you and your team and the efficiency of your business if they're not done well.

These apps help make managing staff a dream:

deputy

Simplify rostering, scheduling, timesheets, tasks, and team communication with an employee management tool that seamlessly connects businesses and employees.

Learn more

LeaveCal

Manage team availability and resource planning easily. Bring your approved employee leave, birthdays and anniversaries directly from Xero into your Google, Outlook or other calendars in seconds.

Learn more

ROSTERELF

This simple cloud software handles **all small business staff rostering tasks**, taking care of everything from staff availability, rostering, shift swaps, clock-in-out and has payroll integration features built for Xero.

Learn more

TANDA

Manage and pay staff accurately, quickly and compliantly. Get the most out of your workforce with **live rostering, attendance and compliance tools**.

Learn more

deel.

Global payroll and hiring built for remote teams. Hire, onboard and pay people in 150 countries worldwide, giving you access to global talent without compliance issues.

Learn more

servicem8

A smart end to end job management app built for businesses that manage jobs and staff in the field, suitable for sole operators up to those with 20 staff.

Learn more

Pain point 3: tracking expenses and stock

Keeping track of expenses and stock can be a real challenge (yes, we know about that draw full of receipts you avoid until EOFY). Apps can help you record expenses properly, pay staff and bills on time, and maintain visibility and control. They can also help you keep track of stock, avoiding wastage, shortages and unhappy customers.

These apps can help you keep track:

EzzyBills

Combine two apps in one and get **invoice processing and approval management**. With a mobile app for scanning receipts, it's suitable for businesses with lots of bills or sales invoices to process.

Learn more

ApprovalMax

Replace paper and email approvals with **fully automated, multi-role and multi-tiered approval workflows** so you can manage payments in and out.

Learn more

Dext | Prepare with Receipt Bank

Collect and extract data from paperwork like receipts, invoices or bank statements with 99% accuracy, then automatically process it to Xero. With smart rules to automate expense categorisation and approvals, you'll stay in control.

Learn more

Dear INVENTORY

Centralise **order and inventory management, integrated point of sale, mobile warehouse management** and integrations with leading marketplaces and shipping services. This app is a solution for growing businesses in retail, wholesale, manufacturing and ecommerce to take control of all operations.
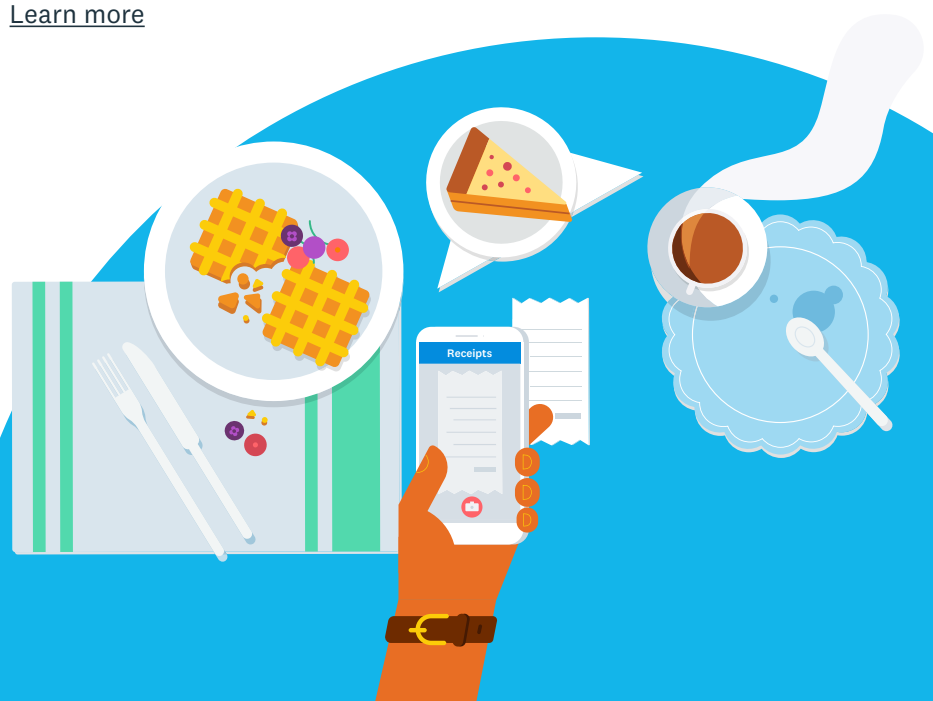

Learn more

UNLEASHED an access company

Inventory management for manufacturers, wholesalers and distributors so you can always see what's in stock – and where – and manage your production and tracking effectively.

Learn more

Pain point 4: connecting your sales and accounting

Life gets a whole lot easier when all your systems and data are connected. You can gain easy visibility into your business performance and bottom line at a glance, using apps to sync your sales data into all the most helpful places.

These apps help you connect all your business data:

>a2X

Automate your ecommerce accounting into Xero from Shopify, Amazon, eBay, Etsy or Walmart platforms. A2X Multi supports merchants selling in multiple countries and platforms.

Learn more

Dext | Commerce
with Greenback

Reconcile itemised digital commerce transactions in Xero with data from over 30 integrations including Amazon, Shopify, Stripe, PayPal, eBay, Etsy, Walmart, Square, Wix, Squarespace, Faire and more.

Learn more

amaka

Connect your **e-commerce, POS and e-signature platforms to Xero** to automate your sales and payment transactions data entry for lightning-fast bank reconciliation.

Learn more

Square

A powerful suite of tools to get any job done, like **point-of-sale, eCommerce, payments, pickup and delivery, online scheduling, marketing**, and more.

Learn more

CIN7

Enhance customer satisfaction and scale omnichannel commerce operations by **connecting your products, sales channels, stock locations, orders, and more** into one automated solution.

Learn more

Apps are designed to help you overcome these pain points and more! Plus every app on the Xero App Store syncs with your Xero account so your business is more connected. Why not give some of these apps a try and see the difference it can make to your business?
